K. Dana Chadwick

Water & Ecosystems Group (329F)
Jet Propulsion Laboratory

email: dana.chadwick@jpl.nasa.gov
web: kdchadwick.github.io

EDUCATION

2017 Ph.D., Earth System Science, Stanford University
Dissertation: Geomorphically driven biogeochemical gradients & their influence on tropical forest canopies

2008 B.S., Environmental Economics and Policy, University of California, Berkeley
Honors Thesis: Imperfect information and market failures in Lao livestock markets

2008 B.A., Molecular & Cell Biology, University of California, Berkeley
Genetics & Development track. Distinction: College of Letters & Sciences

POSITIONS

2021 –	Scientist | Water & Ecosystems, NASA Jet Propulsion Laboratory
	Deputy Program Applications Lead, EMIT
	Field Team Lead, SBG High Frequency Timeseries
	SBG VSWIR Project Science Team Member
2021	Research Associate | Integrative Biology & Geological Sciences, UT Austin
2020	Postdoctoral Researcher| Dept. Earth System Science, Stanford University
2018 – 2019	NSF Postdoctoral Fellow | Stanford & Lawrence Berkeley National Lab
2017	Postdoctoral Researcher | Dept. of Global Ecology, Carnegie Institution
2011 – 2016	Graduate Researcher | Dept. of Global Ecology, Carnegie Institution
2011	Research Intern | Dept. of Global Ecology, Carnegie Institution
2008 – 2011	Independent Contractor; Project Manager; Analyst | 3Degrees Group, Inc.

AWARDS, FELLOWSHIPS

Voyager Award, Jet Propulsion Laboratory (2022)

NSF Earth Sciences Postdoctoral Fellowship (2018-2019)

NASA Earth and Space Science Graduate Fellowship (2014-2016)

AWARDED GRANTS

JPL Advanced Concepts (FY 2023): Critical Zone Science Development. PI: KD Chadwick

JPL Researchers on Campus Program (FY 2023): Integrating Imaging Spectroscopy into the Caltech Critical Zone Initiative. PI: KD Chadwick

JPL Strategic University Research Partnerships Program (FY 2023): Detecting toxic metal contamination through imaging spectroscopy. PI: KD Chadwick

JPL Strategic University Research Partnerships Program (FY 2023): Quantifying functional stability of California ecosystems using imaging spectroscopy after a decade of drought and fire. PI: Fabian Schneider, CO-I: KD Chadwick

NSF Research Coordination Networks (2021): Patterns, Places, People: A Network for Scalable Airborne Observation of Socio-Environmental Systems. PI: A. Elmore. Role: Sr. Scientist

DOE Joint Genome Institute Community Science Program (2020). Title: Scaling microbial traits from genomes to watersheds through combined airborne hyperspectral imaging, soil biogeochemistry, and metagenome assembled genomes. PI: E. Brodie. Role: Listed co-lead investigator. *250 metagenomic reconstructions*

NSF Signals in the Soils EAGER (2018-2020). Title: Can remotely imaged vegetation characteristics provide a window into soil nutrient cycles? PI: K. Maher, Role: Sr. Scientist *$300,000*

Canadian Light Source, X-Ray absorption spectroscopy beamtime (2018-2020), *16 8-hour shifts awarded.*

AIRBORNE & FIELD SAMPLING CAMPAIGNS

SBG High Frequency Timeseries (SHIFT), Dangermond Preserve & Sedgwick Reserve, Santa Barbara County, CA (February – May, 2022, September 2022). Led terrestrial field team for sampling of vegetation traits and diversity surveys over 14 week campaign, coaligned with AVIRIS-ng airborne collections.

Rocky Mountain Biological Laboratory, Gothic, Colorado (July 2019). Completed crown delineation ground-truth work for collaboration with B. Blonder on aspen ploidy mapping using NEON AOP surveys from 2018. *Co-author manuscript published, co-author manuscript in review.*

Rocky Mountain Biological Laboratory, Gothic, Colorado (June-October 2018). Led field ground-truth sampling campaign and coordination with flight team for first task-able National Ecological Observatory Network Airborne Observation Platform aerial surveys. *First author manuscript published, co-author manuscripts in prep, analyses ongoing.*

Rocky Mountain Biological Laboratory, Gothic, Colorado (July, 2017). Foliar collection, vegetation surveys, biomass surveys, and soil sample collection. *Analysis ongoing.*

Kosñipata Valley, Peru (January-February 2017). Soil sampling, GPS data collection along an elevation gradient from the Amazon basin to Andean tree-line to complement Carnegie Airborne Observatory (CAO) imaging spectroscopy and LiDAR data. *Analysis ongoing.*

Danum Valley, Danau Girang Field Centre, Sepilok; Sabah, Malaysia (May, July 2016). Tree crown geolocation, and foliar sampling in support of CAO airborne assessment of state-wide foliar characteristics. *Co-author manuscript published & second in review.*

Mt. Kinabalu Park; Sabah, Malaysia (March-April, 2016). Soil and foliar sampling and tree crown geolocation in support of landscape scape study on distributions of biogeochemical properties along substrate-elevation matrix utilizing imaging spectroscopy data from CAO. *First-author manuscript published.*

Gabilan Mesa, California (brief, 2015). Assisted soil sampling and geomorphic assessment. *Co-author manuscript published.*

Los Amigos Biological Station, Madre de Dios, Peru (July-August 2013, July-August 2014). Soil sampling, foliar sampling, GPS data collection in support of airborne assessment of landscape scale biogeochemical properties. *Three first-author manuscripts published.*

Tarapoto, Peru (August-September 2012). Assisted in on-board data collection, progress tracking, and data post-processing for Carnegie Airborne Observatory northern Peru campaign. *Two co-author manuscripts published.*

Vientiane, Laos (June-August 2007). Market and household surveys in support of honors thesis.

INVITED PRESENTATIONS AND SEMINARS

Chadwick, K.D. 2022. NASA Missions and Programs Relevant for Edifice Instability. *USGS Volcano Edifice Instability Workshop, Cascades Volcano Observatory, Vancouver, WA.*

Chadwick, K.D. 2022. Imaging Earth's surface with the EMIT mission and beyond. *NASA Solid Earth Team Meeting Plenary, Scripps Institute, La Jolla, CA.*

Chadwick, K.D., SHIFT Team. 2022. *SHIFT*-ing to an imaging spectroscopy future: An overview of the SBG High Frequency Timeseries campaign. *NASA Surface Biology and Geology Mission Community Workshop, Washington DC.*

Chadwick, K.D. et al. 2022. SHIFTing into the time domain: exploring ecosystem phenology with imaging spectroscopy data. *Ecological Society of America Meeting, Montreal.*

TEACHING AND MENTORSHIP ACTIVITIES

Serving as graduate committee member for students at University of Southern California and University of Wisconsin, Madison, 2022-present

Stanford Earth Summer Undergraduate Research Program Mentor. Stanford University, 2020

Stanford Earth Summer Undergraduate Research Program Mentor. Stanford University, 2018

Co-Instructor, EARTHSYS 111: Biology and Global Change. Instructor for half of the course focused on terrestrial ecosystems. Stanford University, 2018

Mentor to six undergraduate students. Department of Biology, Sonoma State University, 2017

Stanford Earth Summer Undergraduate Research Program Mentor. Stanford University, 2015

Head Teaching Assistant, EARTHSYS 306: An Earth System Perspective to Global Challenges. Stanford University, 2014

Teaching Assistant, EARTHSYS 155: Science of Soils. Stanford University, 2014

Stanford Earth Systems Undergraduate Internship Mentor. Stanford University, 2014-2015

SERVICE, LEADERSHIP, AND DEVELOPMENT

Member, Distributed Active Archive Center User Working Group, Oak Ridge National Laboratory (2023)

Member, Airborne Sampling Design Technical Working Group, National Ecological Observatory Network (2018-present)

Member, Foliar Sampling Technical Working Group, National Ecological Observatory Network (2017-present)

Plenary Speaker, NEON Science Summit Workshop, Earth Lab, Boulder, CO (2019)

Participant, NCAR-NEON Workshop: Predicting Life in the Earth System – linking the geosciences and ecology, Boulder, CO (2019)

Working Group Participant, Leveraging Distributed Research Networks to Understand Watershed Systems, DOE Biological and Environmental Research Program, Washington DC (2019)

Student, Advancing Learning Through Evidence-Based STEM Teaching, Center for Integrated Research Teaching and Learning, Stanford (2018)

Member, Biogeochemistry Technical Working Group, National Ecological Observatory Network (2017-2018)

Graduate Voice & Influence Program Fellow, Clayman Institute for Gender Research, Stanford University (2015-2016)

Graduate Student Representative. Hiring committee Water and Land Resources faculty search. Stanford University (2015)

Committee member, student committee for improving first year graduate core curriculum in Dept. of Environmental and Earth System Science. Stanford University (2014)

Stanford Reactive Transport Summer School (StaRT) Participant, Stanford University (2014).

Participant, Revisiting nutrient limitation in tropical forests working group, National Center for Ecological Analysis, Santa Barbara, CA (2013)

WORK EXPERIENCE

2008 – 2011 Independent Contractor; Project Manager; Analyst | 3Degrees Group, Inc.

- Managed contracting, budgeting and fulfillment on multiple consulting projects

- Researched and analyzed renewable energy regulations and market conditions to inform national and regional scale trading strategies
- Explored relationships between carbon sequestration and biomass renewable energy production strategies and regulations nationally
- Collaborated on development of environmental commodities portfolio management and market analysis database
- Assessed feasibility of proposed renewable projects for utility investment

UNDERGRADUATE & POSTGRADUATE MENTEES

Scott Roycroft, Stanford University
Lucas Del Toro, Stanford University
Heather Herman, Stanford University
Anthony Chui, Sonoma State University
Dino Sbardellati, Sonoma State University
Maceo Hastings Porro, Stanford University
Maeve McCormick, Stanford University
Douglas Ovick, Sonoma State University
Makenzie Crews, Sonoma State University
Bailey Crocker, Sonoma State University
Emily Humphree, Sonoma State University
Andea Scott, Stanford University
Amanda Henderson, RMBL
Kathleen Grant, USC
Mitchell Zimmerman, Stanford University
Chelsea Wilmer, CSU
Dellena Bloom, LBNL
Natalie Queally, U. Wisc
Piper Lovegreen, UCSB
Mandy Lopez, JPL
