
Kazuyuki Miyazaki

Jet Propulsion Laboratory

My research

Kazuyuki Miyazaki is a scientist who specializes in atmospheric composition research. His research activities range from the development of chemical data assimilation system to the study of the impact of air quality on climate and human health. His chemical reanalysis product, based on assimilation of multiple satellite measurements from various NASA missions, has provided unique information on decadal changes in the atmospheric environment for various air quality and climate studies. His current research focuses on development of a high-resolution chemical data assimilation system and its science applications, observing system simulation experiments (OSSE), evaluations of satellite data products and IPCC model predictions, and air quality and GHG emission analysis.

EDUCATION

Ph.D. in Geophysics, 2006
Tohoku University, Japan

Focus: Atmospheric Sciences

Professional Experience

Jet Propulsion Laboratory, California Institute of Technology

2019 - Present **Scientist**, Tropospheric Composition Group

2016 - 2017 **Research Scholar**, Carbon Cycle and Ecosystems Group

Japan Agency for Marine-Earth Science and Technology (JAMSTEC)

2017 - 2019 **Deputy Group Leader**, Geochemical Cycle Research Group

2013 - 2019 **Senior Scientist (tenured)**, Research and Development Center for Global Change

2011 - 2012 **Research Scientist**, Environmental Biogeochemical Cycle Research Program

2006 - 2010 **Postdoctoral Scientist**, Frontier Research Center for Global Change

University of Hawai'i

2012 - 2013 **Visiting Scientist,** International Pacific Research Center (IPRC)

Royal Netherlands Meteorological Institute (KNMI)

2010 - 2012 **Visiting Scientist,** Chemistry and Climate Division

The Japan Society for the Promotion of Science for Young Scientists (JSPS)

2003 - 2006 **Research Fellow**, Category DC1: for excellent Ph.D. students

Professional Activities

2021 **Review Panel,** Japan Society for the Promotion of Science, Grants-in-Aid for Scientifitc Resaerch

2021 - present **Working group lead,** IGAC, Tropospheric Ozone Assessment Report, Phase II (TOAR-II, 2020-2024), Chemical Reanalysis Focus working group

2021 - present	**Working group lead,** IGAC, Tropospheric Ozone Assessment Report, Phase II (TOAR-II, 2020-2024), Chemical Reanalysis Focus working group
2021 - present	**Validation team member**, GEMS L1/L2 validation team
2020	**Workshop member,** COVID-19: Identifying Unique Opportunities for Earth System Science, Caltech KISS Virtual Workshop
2020	**Panelist**, the EPA's webinar "Moving from research to regular utilization of satellite data: NO_2 and O_3" (2020)
2020	**Workshop organizer**, AMIGO/IGAC VIRTUAL WORKSHOP, CHANGES IN ATMOSPHERIC COMPOSITION DURING THE COVID-19 LOCKDOWNS, NOVEMBER 3, 2020
2020	**Session Chair**, AGU fall meeting 2020 "Satellite-Based Air Quality and Atmospheric Composition Impacts of COVID-19"
2019 - present	**Steering members,** IGAC (International Global Atmospheric Chemistry), AMIGO (Analysis of eMIssions usinG Observations)
2019 - present	**Science Advisory Group member,** the ESA Mission ESP-MACCS
2018 - present	**Review Panel,** NASA, ESA, EFG grant proposals
2015	**Review Panel**, Wageningen University graduate school evaluation panel
2015 - 2019	**Committee member**, the IGPB/WCRP/DIVERSITAS subcommittee, *Science Council of Japan*
2013 - 2017	**Expert investigator,** National Institute of Science and Technology Policy, *Ministry of Education, Culture, Sports, Science and Technology, Japan*

Awards

2020	NASA group achievement award for MUSES algorithm team
2020	JPL team bonus award for COVID-19 air quality research
2017	NASA group achievement award to KORUS-AQ team
2012	Yamamoto-Shono Award (best young scientist award) from the Meteorological Society of Japan
	Young Scientist Award from the Japan Society of Atmospheric Chemistry
2009	JAMSTEC award for Outstanding Research Accomplishments
2009	Best poster award, 5th International Workshop on Global Change: Connection to the Arctic (GCCA5)
2004	Half exemption of the school fee at Tohoku University
2004 - 2006	Japanese Government Scholarship, Ministry of Education, Culture, Sports, Science and Technology
1999 - 2003	

Mentor / Teaching experience

2022	**Mentor**, 2022 JIFRESSE Summer Internship Program (JSIP)
2021	**Mentor**, 2021 JIFRESSE Summer Internship Program (JSIP) & JPL Visiting Student Research Program (JVSRP)
	Co-Mentor, summertime intern student (UCLA)
2020 - 2021	**Co-mentor**, Caltech graduate student
2020 - present	**Mentor**, UCLA graduate student intern
2019	**Mentor**, summertime intern student (UCLA)
2016 - 2020	**Mentor**, postdoctoral scientist (JAMSTEC)
2016 - 2019	**Co-supervisor**, PhD course student (University of Tokyo)
2015 - 2016	**Co-supervisor**, PhD course student (Tohoku University)
2013	**Part-time Lecturer**, Ibaraki University
2009 - 2010	**Co-supervisor**, master's candidate (Hokkaido University)
2003 – 2006	**Technical assistance**, Supercomputing System Information Synergy Center, Tohoku University
2003 - 2004	**Research Assistant**, Tohoku University

Funding

- **PI,** *Subgrid Scale Drivers of Pollution Inferred from Model-Based Inference and Machine Learning*, JPL Strategic research and technology development (SRTD), (FY2022-2024)
- **Co-I,** *Ozone and Trace Gases,* JPL Strategic research and technology development (SRTD), (FY2022-2024)
- **Co-I,** *Air Quality Architecture to Meet US National Needs for Forecasting, Management, and Assessment of Health Impacts,* JPL Strategic research and technology development (SRTD), (FY2022-2024)
- **Co-I**, A scalable framework for assessing variability in CO_2 point sources using multiple satellite instruments, NASA ROSES 2020: Science Team for the OCO Missions NNH20ZDA001N-OCOST (2021-2014) (PI: Daniel Cusworth)
- **Co-I**, *Quantifying Trends in Top-down Emission Estimates of CO and NOx*, CSA Class Grant and Contribution Program (2021-2024) (PI: Dylan Jones)
- **PI**, JPL Earth Science Division Raise the Bar (2020-2023)
- **PI,** *Quantifying the impacts of global shifts of anthropogenic emissions on air quality using a decadal chemical reanalysis based on the Aura and A-train satellite measurements,* NASA ROSES Aura Science team NNH19ZDA001N-AURAST (2020–2023)
- **PI,** *TROPOMI multi-constituent data assimilation*, Fund for the Promotion of Joint International Research (Fostering Joint International Research (B)), 18KK0102 (2018–2019)
- **PI,** *Tropospheric chemistry reanalysis: TCR-2*, Japan Society for the Promotion of Science Grant-in-Aid for Scientific Research (B)18H01285D (2018–)
- **PI,** *Multi-constituent chemical data assimilation*, Japan Society for the Promotion of Science Grant-in-Aid for Scientific Research (C) 15K05296 (2015–2017)
- **PI,** *Assimilation of multiple chemical satellite observations and emission estimations*, Japan Society for the Promotion of Science Grant-in-Aid for Yong Scientists (B) 19740300 (2012–2014)
- **PI**, *Global chemical data assimilation of OMI NO_2 data*, JSPS Postdoctoral Fellowship for Research Abroad (2010–2012)
- **PI,** *Development of a data assimilation system for ozone and related species using an ensemble Kalman filter*, Japan Society for the Promotion of Science Grant-in-Aid for Yong Scientists (B) 19740300 (2006–2009)
- **PI**, WMO/WCRP financial assistance for the Earth System Science Partnership (ESSP), Global Environmental Change Open Science Conference (2006)
- **PI**, Financial assistance for the carbon data assimilation workshop from the Mathematical Sciences Research Institute, University of California Berkeley (2006)
- **PI**, WMO/WCRP financial assistance for SPARC data assimilation workshop (2005)
- **PI**, Travel grant from the Tohoku development foundation (2005)
- **PI,** Grant-in-Aid for Fellows of the Japan Society for the Promotion of Science (2003–2006)
- **Collaborator**, A scalable framework for assessing variability in CO2 point sources using multiple satellite instruments, NASA ROSES NNH20ZDA001N-OCOST (2021-2023)
- **CoI,** Substantiating Key Synergies Between Air Quality (AQ) and Greenhouse Gas (GHG) Monitoring from Space: A case for anthropogenic CO2 and CH4 constraints from CO and NO2, NNH18ZDA001N, NASA Atmospheric Composition Modeling and Analysis Program (2019–2022)
- **CoI,** *Emission estimates of black carbon and methane*, Global Environment Research Fund (2-1803) by the Ministry of the Environment, Japan (2018–2021)
- **CoI,** *The Role of Anthropogenic Combustion on Urban-Geo System Environments: A Multi-Species Analysis Over Megacities*, NASA Research Announcement, NNH16ZDA001N-ACMAP, Atmospheric Composition: Aura Science Team and Atmospheric Composition Modeling and Analysis Program (PI: Avelino F. Arellano, Jr., University of Arizona) (2017–2019)
- **CoI**, *Development and application of intelligent measurement-analysis methods through coalition between measurement technologies and informatics,* Japan Science and Technology Agency (JST) CREST program (PI: K. Sato) (2016–2022)
- **CoI,** *Tropospheric ozone variations over southeast Asia*, Japan Society for the Promotion of Science Grant-in-Aid for Scientific Research (C) 16K00535 (PI: S. Ogino) (2016–2022)

- **CoI,** *A.19 KORUS-AQ: An International Cooperative Air Quality Field Study in Korea*, NASA Research Announcement (NRA) NNH15ZDA001N, Research Opportunities in Space and Earth Science (ROSES-2015) (PI: L. Emmons) (2016–2018)
- **CoI,** *Big data and Earth sciences*, FLAGSHIP2020 Post-K computer project (PI: K. Takahashi) (2015–2019)
- **CoI,** *Towards km-scale air pollution observations from space*, Coordination Funds for Promoting AeroSpace Utilization (PI: Y. Kanaya) (2015–2017)
- **CoI,** Arctic Challenge for Sustainability (ArCS) Project (PI: T. Koike) (2015–2019)
- **CoI,** *Isentropic analyses of atmospheric/oceanic global circulations*, Japan Society for the Promotion of Science Grant-in-Aid for Scientific Research (A) 15H02129 (PI: T. Iwasaki) (2015–2019)
- **CoI,** *Dynamics and chemistry in the tropical tropopause layer*, Japan Society for the Promotion of Science Grant-in-Aid for Scientific Research (S) 26220101 (PI: F. Hasebe) (2014–2018)
- **CoI,** *Understanding QBO variations in changing climate*, Japan Society for the Promotion of Science Grant-in-Aid for Scientific Research (B) 26287117 (PI: Y. Kawatani) (2014–2016)
- **CoI,** *Understanding CH_4 and N_2O variations from an atmospheric chemistry-land vegetation coupling model*, Japan Society for the Promotion of Science Grant-in-Aid for Scientific Research (B) 25241006 (PI: K. Sudo) (2013–2015)
- **CoI,** *Development of a data assimilation system for ozone and related species using an ensemble Kalman filter*, Global Environment Research Fund (B-93) by the Ministry of the Environment, Japan (PI: T. Iwasaki) (2009–2012)

Selected invited presentations

1. **Miyazaki, K.**, Atmospheric composition chemical reanalysis and emission estimates based on multi-constituent satellite data assimilation. Harvard University Atmospheric & Environmental Chemistry Seminar, 1 April 2022 (Virtual)
2. **Miyazaki, K.**, K. Bowman, T. Sekiya, M. Takigawa, J. Neu, K. Sudo, G. Osterman, H. Eskes, Global tropospheric ozone responses to reduced NOx emissions linked to the COVID-19 world-wide lockdowns, AGU Fall Meeting 2021, 15 December 2021 (Virtual)
3. **Miyazaki, K.**, K. Bowman, T. Sekiya, M. Takigawa, J. Neu, K. Sudo, G. Osterman, H. Eskes, Global tropospheric ozone responses to reduced NOx emissions linked to the COVID-19 world-wide lockdowns, Caltech Yuk Lunch Seminar, 1 September 2021 (Virtual)
4. **Miyazaki, K.,** K. Bowman, T. Sekiya, M. Takigawa, J. L Neu, K. Sudo, G. Osterman, H. Eskes, Updated atmospheric composition chemical reanalysis and emission estimates, JpGU Meeting 2021, 2 June 2021. (Virtual)
5. **Miyazaki, K.**, Jones, D., W. Helen, K. Bowman (2021). Assessment of measurement representativeness by chemical reanalyses and TOAR-II chemical reanalysis Focus Working Group plan, IGAC TOAR-II HEGIFTOM working group meeting, 25 March 2021. (Virtual)
6. **Miyazaki, K.**, Bowman, K., Neu, J., Osterman, G., Sekiya, T., Takigawa, M., Eskes, H., Sudo, K. (2021). Quantifying the impacts of global shifts of anthropogenic emissions on air quality using a decadal chemical reanalysis based on multiple NASA's satellite measurements, UCLA JIFRESSE seminar, 26 February 2021. (Virtual)
7. **Miyazaki, K.**, Bowman, K., Sekiya, T., Jiang, Z., Chen, X., Eskes, H., Ru, M., Zhang, Y., Shindell, D., (2020). Quantifying the impacts of global shifts of anthropogenic emissions on air quality using a decadal chemical reanalysis based on multiple NASA's satellite measurements, AGU fall meeting, 8 December 2020. (Virtual)
8. **Miyazaki, K.**, K. W. Bowman, T. Sekiya, D. Fu, S. S. Kulawik, K. Sudo, T. Walker, Y. Kanaya, M. Takigawa, K. Ogochi, H. Eskes, K. F. Boersma, A. M. Thompson, B. Gaubert, J. Barre, and L. K. Emmons, K. Yumimoto Multi-constituent chemical data assimilation and its applications in air quality and climate research, EOS Aura Science Team Meeting, Pasadena, CA, USA, 27 August 2019.
9. **Miyazaki, K.,** T. Sekiya, D. Fu, K. W. Bowman, T. Walker, S. S. Kulawik, K. Sudo, Y. Kanaya, M. Takigawa, K. Ogochi, B. Gaubert, J. Barre, L. Emmons, Applications of satellite, ozonesonde, and aircraft measurements and chemical transport models on air quality research, USTH workshop on Upper Air Sounding and Air Quality, Hanoi, Vietnam, 8 October 2018.
10. **Miyazaki, K.,** T. Sekiya, H. Eskes, F. Boersma, D. Fu, K. Bowman, Susan S. Kulawik, T. Walker, K. Sudo, Y. Kanaya, M. Takigawa, K. Ogochi, B. Gaubert, J. Barre, L. Emmons, A tropospheric chemistry reanalysis based

on multi-constituent satellite data assimilation and its application for KORUS-AQ, 2017 annual conference of Korean Society for Atmospheric Environment, Deagu, Republic of Korea, 10 November, 2017.

11. **Miyazaki, K.**, A tropospheric chemistry reanalysis based on multi-constituent satellite data assimilation, University of Toronto Noble seminar series, Toronto, Canada, 3 October 2016.
12. **Miyazaki, K.**, H. Eskes, and K. Sudo, A tropospheric chemistry reanalysis for the years 2005-2014 based on an assimilation of AURA OMI, MLS, TES and MOPITT satellite data, The Moscone Center, San Francisco, AGU fall meeting, 15 December 2015.
13. **Miyazaki, K.**, A tropospheric chemistry reanalysis for the years 2005-2014 based on an assimilation of AURA OMI, MLS, TES and MOPITT satellite data, UC Berkeley BASC Seminar, Berkeley, USA, 18 November 2015.
14. **Miyazaki, K.,** A tropospheric chemistry reanalysis for the years 2005-2014 based on an assimilation of AURA OMI, MLS, TES and MOPITT satellite data, Wageningen University Meteorology and Air Quality seminar, Wageningen, the Netherlands, 10 September 2015.
15. **Miyazaki, K.**, A tropospheric chemistry reanalysis for the years 2005-2012 based on an assimilation of AURA OMI, MLS, TES and MOPITT satellite data, NCAR formal seminar, Boulder, USA, 19 March 2015.
16. **Miyazaki, K.**, Estimating surface NOx and CO emissions and lightning NOx sources by assimilating satellite observations of multiple chemical species, Workshop on parameter estimation and inverse modelling for atmospheric composition, ECMWF, Reading, UK, 22 October 2013.
17. **Miyazaki, K.**, Global and Asian NOx emission estimates derived from a combined assimilation of multiple satellite observations, International Workshop on "Inventory, Modeling and Climate Impacts of Greenhouse Gas emissions (GHG's) and Aerosols in the Asian Region, Tsukuba International Conference Center, Tsukuba, Japan, 26 June 2013.
18. **Miyazaki, K.**, Simultaneous assimilation of multi-species data for the analysis of chemical composition in the troposphere and stratosphere, WCRP Regional Workshop on Stratosphere-Troposphere Processes and their Role in Climate (SPARC), Kyoto University, Kyoto, 1 April 2013.

+ More than 100 presentations at Japanese domestic conferences

Colloquia and Seminars

2022: Harvard University

2021: UCLA, NASA/NOAA Interagency COVID-AQ Discussion

2018: KNMI, University of Toronto, Environment and Climate Change Canada

2016: University of Toronto

2015: NCAR, JPL, Wageningen University, UC Berkeley

2013: University of Hawai‘i, KNMI, University of Reading, Kyushu University, Ibaraki University

2012: Eindhoven University of Technology, KNMI, University of Tokyo

2010: KNMI, Nagoya University

2007: Japan Meteorological Agency

2006: Kyoto University, University of Tokyo

2004: University of Chicago, NCAR, NOAA
