

Alberto Roman, PhD

Positions

- 2021–Present NASA Research Scientist, Jet Propulsion Laboratory, Pasadena, USA
2018–2021 NASA Postdoctoral Program (NPP) Fellow, Jet Propulsion Laboratory, Pasadena, USA
2015–2017 Postdoctoral Fellow, IPGP, Paris, France

PhD Thesis

- Title: **Emplacement and Post-Emplacement Dynamics of Magma Reservoirs**
Advisor: Claude Jaupart (IPGP)
Jury: Antonio Costa (INGV, Italy), Nicholas Arndt (IsTerre, France), Frederic Moynier (IPGP, France), Stephen Sparks (University of Bristol, UK)

Publications

- Roman, A., and Lundgren, P. (2021). Dynamics of large effusive eruptions driven by caldera collapse. *Nature*, 592(7854), 392–396.
- Roman, A., Bagnardi, M., and Lundgren P., Effects of conduit elasticity during effusive eruption. *In prep*

Education

- 2020-Present **Professional Certificate, Machine Learning**, *Stanford University*, Stanford, USA.
- 2011–2015 **PhD, Geophysics**, *Institut de Physique du Globe de Paris*, Paris, France.
- 2008–2011 **MSc, Geophysics**, *Institut de Physique du Globe de Paris*, Paris, France.
honors: Ranked 2nd
- 2006 **European Studentship Erasmus**, *Université Pierre et Marie Curie, Paris 6*, Paris, France.
- 2005-2008 **BSc, Earth Sciences, Geophysics**, *Università degli studi di Milano*, Milan, Italy.
honors: Cum Laude

Internships

- 2010 **Topographical coupling between the core and the mantle at the CMB**, *Royal Observatory of Belgium*, Bruxelles, Belgium.
Advisor: Veronique Dehant (Royal Observatory of Belgium)
- 2009 **Geodetic signature of anthropogenic global warming**, *Institut de Physique du Globe de Paris*, Paris, France.
Advisor: Olivier de Viron (Institut de Physique du Paris)
- 2008 **InSAR study of the deformation in the seismogenic zone of Gemona del Friuli, North Eastern Italy**, *Università degli studi di Milano*, Milan, Italy.
Advisor: Bruno Crippa (Università degli Studi di Milano)

Skills

- Machine learning
- InSAR
- Continuum mechanics
- Numerical modeling
- Geophysical methods

Programming languages and IT skills

Python, Matlab, Fortran, C, C++, Bash scripting,, Unix

Teaching Experience

Mathematics (first and second year undergrad), Numerical Analysis, Waves and Vibrations

Fieldwork Experience

September 2016 Field trip to Klychevskoy volcano, Kamchatka, Russia

July 2014 International Volcanological Summer School, Karymsky volcano, Kamchatka, Russia. Organized by Pavel Izbekov (UAF) and David Fee (UAF)

2006–2011 Field trips to the Alps and to geophysical observatories, with emphasis on cartography, structural geology and geophysical imagery

Languages

Italian (Mother language), French (Fluent), English (Fluent), Spanish (Basics)
