

# Dr. rer. nat. FRANK WERNER

## GENERAL INFORMATION

*born* Nov. 05, 1983 in Gera, Germany

*work address* Mail Stop 183-701  
Jet Propulsion Laboratory  
4800 Oak Grove Drive  
Pasadena, CA 91109, USA

*work email* [frank.werner@jpl.nasa.gov](mailto:frank.werner@jpl.nasa.gov)

*work phone* +1 (818) 354 1918

*work website* <https://www.jpl.nasa.gov/>

## WORK EXPERIENCE

02/2022–present Jet Propulsion Laboratory in Pasadena, USA

### Scientist

Contributions to the Aura Microwave Limb Sounder science team, instrument development and testing, studies on stratospheric composition with a focus on water vapor, and developing machine learning models to facilitate active research projects.

03/2019–02/2020 Jet Propulsion Laboratory in Pasadena, USA

### Postdoctoral Research Associate

Development of a retrieval simulator for a new CubeSat setup for high-resolution tomography of convective hydration, contributions to a new Python-based radiative transfer model, studies on stratospheric humidity, and improving the near-real-time data products of the Microwave Limb Sounder by means of machine learning techniques.

08/2018–03/2019 Leibniz Institute for Tropospheric Research in Leipzig, Germany

### Postdoctoral Research Associate

Developed a cloud retrieval algorithm for MSG SEVIRI with increased spatial resolution, using novel pan sharpening techniques.

02/2015–05/2018 Joint Center for Earth Systems Technology in Baltimore, USA

### Postdoctoral Research Associate

Studied scale-dependence of cloud products retrieved from MODIS and ASTER, contributed to the development of the first cloud retrieval algorithm for ASTER, and created novel techniques to mitigate retrieval biases due to sub-pixel variability.

09/2009–01/2015 Universität Leipzig in Leipzig, Germany

### Research Associate

Planned and developed a compact airborne radiation instrument, characterized the optical inlets and spectrometers in the laboratory, performed numerous experimental field studies to sample data, developed novel retrieval algorithms to mitigate uncertainties in cloud property retrievals, and applied the data to aerosol-cloud-interaction studies.

## EDUCATION

09/2009–01/2015 Universität Leipzig in Leipzig, Germany

### Doctor rerum naturalium, Grade: 1.0 (*summa cum laude*)

Planned, developed and characterized a lightweight, airborne spectrometer system. Sampled data provide conclusive, experimental evidence of a fundamental connection between aerosol loading in the atmosphere, cloud microphysics, and reflected radiation.

Thesis: *Twomey Effect of Trade Wind Cumuli*

Advisors: Prof. Dr. Manfred Wendisch & Prof. Dr. Peter Pilewskie

04/2004–08/2009 Johannes Gutenberg–Universität Mainz in Mainz, Germany

**Master of Science (Meteorology)**, Grade: 1.2 (*very good*)

Provided truly collocated measurements of optical and microphysical cloud properties, based on a unique measurement setup, which demonstrate a good agreement between remote sensing and in situ data, but strong discrepancies to satellite observations.

Thesis: *Helicopter–based measurement of boundary layer cloud properties and solar radiation*

Advisors: Prof. Dr. Manfred Wendisch & Prof. Dr. Heini Wernli

07/2006–06/2007 Uppsala Universitet in Uppsala, Sweden

**Student Exchange via Erasmus Programme**

Established a connection between the University of Mainz and the University of Uppsala, which to this day allows students from each university to study abroad as part of the Erasmus Programme (European Community Action Scheme for the Mobility of University Students). Attended courses in Theoretical Physics, Atmospheric Dynamics and Swedish language.

1994–2002 Georg–Christoph–Lichtenberg Gymnasium in Gera, Germany

**Abitur (University–entrance Diploma)**, Grade: 1.7 (*good*)

Main courses: Literature, English, Mathematics, and Economics.

#### AWARDS

01/2010 Student Award of the ERCA Winter School in Grenoble, France

04/2012 Annual PhD Award of the Leibniz Institute of Tropospheric Research in Leipzig, Germany

08/2012 ICCP Poster Award for Early Career Scientists of the International Conference on Clouds and Precipitations in Leipzig, Germany

#### CERTIFICATES

11/2008 TOEFL Test of the language ability of non–native speakers  
Grade: 114/120

#### LANGUAGE SKILLS

*German* Mother Tongue

*English* Very Good (speaking, reading, writing)

*Swedish* Extended Knowledge (reading), Basic (speaking, writing)

*Spanish* Basic (simple words and phrases only)

#### COMPUTER SKILLS

*Platform* macOS, UNIX, Microsoft Windows

*Applications* Adobe Illustrator, L<sup>A</sup>T<sub>E</sub>X, Microsoft Office, Origin

*Languages* C, Fortran, IDL, Julia, Matlab, Python

## EXPERIMENTAL FIELD STUDIES

- 2014   ACRIDICON–CHUVA (Manaus, Brasil)  
          ML–CIRRUS (Oberpfaffenhofen, Germany)
- 2013   NARVAL (Oberpfaffenhofen, Germany)  
          AIRTOSS (North Sea, Germany)
- 2011   CARRIBA (Grantley Adams International Airport, Barbados)
- 2010   CARRIBA (Grantley Adams International Airport, Barbados)
- 2009   MEGACITIES (Zhongshan, China)
- 2008   EGER (Fichtelgebirge, Germany)  
          EUCAARI (Cabauw, Netherlands)
- 2007   SPEEDY (Kiel, Germany)
- 2006   PRINCE (Black Forrest, Germany)
